

Lenovo V30a-24 AIO PC Intel Core i5 1135G7 8 GB RAM 256 GB SSD 23.5 FHD Non Touch Dos Black 1 Year-12D8004FGP

Description

Lenovo V30a-24 AIO PC Intel Core i5 1135G7 8 GB RAM 256 GB SSD 23.5 FHD Non Touch Dos Black 1 Year-12D8004FGP

Business performance

Powered by up to 10th Gen Intel® Core i5 processors, speedy PCIe SSD storage, and up to 32MB DDR4 memory, the Lenovo V30a (24", Intel) all-in-one is powerful and responsive to your business needs. Its 23.8" display is perfect for viewing large spreadsheets and long-form documents. You'll also keep power consumption minimal with Modern Standby, allowing for instant email updates and VoIP access even when the PC is inactive.

Robust security

Prevent data theft by restricting port access with Smart USB Protection, or use Lenovo Shield to disable them and the webcam via the BIOS. Lenovo Shield also securely erases data and restricts hard drive access via password. Protect your privacy with a dedicated shutter on the optional camera.

lenovo-monitor-lenovo-v30a-24-feature-1

Enhanced user experience

The 23.8" anti-glare display, with a 92% screen-to-body ratio and Full HD resolution, offers excellent visual clarity. It's also VESA-compatible, should your workspace require wall-mounting. Off the wall, the ergonomic stand offers easy lift, tilt, and swivel functionality. Low Blue Light and Ultra Low Noise certifications further guarantee your comfort as you work.

Improved teleconferencing

Smart Conference makes video conferences clear and easy. Filter out background noise and enhance the speaker's voice from any direction, in a single- or multiple-participant meeting. Make collaboration seamless and efficient.
